

THE S4 ROOM

SPACE TO CREATE AND PERFECT

FIRSTHAND KNOWLEDGE

A professional multipurpose facility located at the Clair Global Nashville office with a creative, open vibe for band/production rehearsals. This comfortable environment is constructed with the iconic Clair S4 speaker enclosures as walls. The S4 changed the touring industry and is now positioned to witness the birth of the next great touring artists.

The same technical staff that oversees some of the largest tours in the world is on site to offer expertise and support in audio and production. We tailor audio packages to meet your needs, both in the studio and on the road. All of this combines to create an experience that is creative, collective and productive.
